

Robert Jordan

Computing & IT Student | Technical Support and Operations Professional

Derry/Londonderry, Northern Ireland | 07936 100241 | robjordan@gmx.com | github.com/Robbiej83

Professional Profile

Experienced operations and customer-support professional beginning a BSc (Hons) Computing & IT with The Open University in October 2026. Previous experience includes broadband troubleshooting, physical security, contract management and self-employed delivery work. Currently developing practical skills in web development, Git, Linux, networking and programming, with a long-term focus on cloud infrastructure and cybersecurity.

Technical and Transferable Skills

Technical foundations: Windows 11, HTML5, CSS3, VS Code, Git, GitHub, GitHub Pages and introductory Linux/networking development.

Operations and finance: Route planning, deadline management, invoicing, mileage and expense records, stock control, Sage and Microsoft 365.

Leadership and communication: Contract coordination, staff rotas, customer communication, complaint resolution and explaining technical steps clearly.

Broadband support: Residential broadband diagnostics, router configuration, Wi-Fi troubleshooting, internal wiring checks and fault escalation using Merlin.

Security and incident handling: Access control, incident response, risk awareness, accurate record keeping and calm decision-making under pressure.

Professional strengths: Independent working, adaptability, prioritisation, reliability and sustained self-directed learning.

Selected Project

Personal Technical Portfolio | HTML5, CSS3, Git, GitHub Pages

Designed and deployed a responsive personal portfolio website using semantic HTML and reusable CSS variables.

Published the site through GitHub Pages and used Git/GitHub for source control and version history.

Applied accessibility improvements including keyboard focus styles, responsive navigation, reduced-motion support and clear project-status labels.

Roadmap includes Oracle Cloud-hosted CV delivery and a documented private cloud storage laboratory.

Professional Experience

Self-Employed Delivery Driver | Just Eat and Uber Eats 2021 - Present

Manage delivery work across multiple platforms, balancing route selection, customer service, deadlines, fuel use and vehicle costs.

Maintain accurate mileage, income, expense and tax records for self-employment.

Work independently and adapt plans quickly in response to traffic, demand and platform changes.

Chef / Grill Chef | Whitbread Group PLC February 2019 - 2021

Prepared food to company standards while maintaining hygiene, quality and timing under sustained operational pressure.

Technical Customer Service Adviser, Sky Broadband Contract | Firstsource Solutions Ltd. January 2015 - February 2019

Diagnosed residential broadband and Wi-Fi faults using the Merlin diagnostic platform.

Guided customers through router configuration, connectivity checks, wireless troubleshooting and internal wiring tests.

Captured accurate fault information, distinguished customer-premises issues from line faults and escalated cases where required.

Earlier Experience Pre-2015

Kitchen and hospitality roles with Southcoast Foods Ltd. and JD Wetherspoon.

Security officer work with Standeasy, BKS and MQD Security, including access control and incident response.

Contracts management and assistant operations management across technical and hospitality settings, including staff rotas, procurement, stock, invoicing and site coordination.

Earlier technical and trade roles including pipe fitting, computer engineering support and general operations.

Education

BSc (Hons) Computing & IT | The Open University Starting October 2026

Registered Stage 1 modules: TM111 Introduction to Computing and Information Technology 1; TM129 Technologies in Practice; TM112 Introduction to Computing and Information Technology 2.
Career focus: cloud infrastructure and cybersecurity.

BTEC National Diploma in Computer Studies | Southampton City College Completed 2001

Study included Windows systems, Microsoft Office, Visual Basic, networking and computer diagnostics.

GCSEs | Millbrook Community School 1999

Seven grades A-C, including English Language (A), English Literature (A), Mathematics (B) and Science (B).
